Consent to Participate in Research at the University of Oklahoma

[OU-NC IRB Number: 16755 Approval Date: 12-14-2023]

You are invited to participate in research examining perceptions of art.

You must be 18 years old or older to participate in this study.

If you agree to participate, you will **complete this approximately 5-minute online survey**.

You may experience these risks:

Data collected online or by a device and transmitted electronically: You will be asked to complete an online survey as part of this research. The organization hosting the data collection platform has its own privacy and security policies for keeping your information confidential. There is a risk that the external organization, which is not part of the research team, may gain access to or retain your data or your IP address which could be used to re-identify you. No assurance can be made as to their use of the data you provide for purposes other than this research.

There are no benefits for participating in this research.

If you participate, you will receive this compensation:

Cameron University General Psychology Students
You will receive 1 research participation credit in return for your participation.

Cameron University Students NOT Enrolled in General Psychology
You will receive extra credit in an amount to be determined by your instructor in return for your participation.

Prolific Participants
You will receive $1.00 for completing this survey, which should take approximately 5 minutes.

If Cameron University participants do not wish to participate in this research, they have the option to read and summarize, in one page, a peer-reviewed journal article and should contact their instructors in order to do so.

Your participation is voluntary and your responses will be kept confidential. Please note that the survey collects your IP address to record your state and to ensure participation is not repeated, but the IP address will be deleted afterwards.

We might share your de-identified data with other researchers or use it in future research without obtaining additional assent from you.

Even if you choose to participate now, you may stop participating at any time and for any reason.

If you have questions about this research, please contact:

The principal investigator, Dr. Jeff Seger, at jseger@cameron.edu

You can also contact the University of Oklahoma – Norman Campus Institutional Review Board at 405-325-8110 or irb@ou.edu with questions, concerns or complaints about your rights as a research participant, or if you don't want to talk to the researcher.

Please print this document for your records. By providing information to the researcher(s), I am agreeing to participate in this research.

Debriefing

Thank you for participating. We are interested in examining whether a person's life history strategy influences willingness to conform to different types of social pressure. Some were randomly assigned to a condition in which they saw paintings along with

ratings (one low, one high) attributed to previous participants (i.e., normative social pressure) and then were asked to provide their own rating of the painting. Other participants saw paintings along with ratings (one low, one high) attributed to art critics (informational social pressure), and then were asked to provide their own rating of the painting.
